Junior iOS Developer	Oct 2024 – Jan 2025
• Developed and enhanced iOS Mobile Banking applications using Swift • Built a Wallet Application using SwiftUI from scratch • Implemented feature enhancements, bug fixes, and performance improvements	
<u>Lead Integrated Business Service</u>	Chennai
Trainee Application Developer	Jul 2024 – Oct 2024
• Developed a School Management System (Flutter + PHP APIs) • Designed UI using Figma and implemented cross-platform features • Maintained HR systems and Inventory Management applications	
<u>Saveetha School of Engineering</u>	Chennai
Application Development Intern	Oct 2023 – Mar 2024
• Built an HR Management System (iOS + Web) • Developed iOS application using Swift and backend APIs using PHP • Designed UI/UX using Figma	
<u>Shiash Info Solutions</u>	Chennai
Java intern developer	Jan 2024 - April 2024
Worked as a intern developer in the field of full-stack development	

Projects

HR Management System (Multi-Platform)	
• Designed and developed a UI/UX for a mobile-based HR application using Figma, focusing on usability and clean interface design • Built a Web-based HR Management System to manage employee attendance, profiles, and administrative workflows • Developed an iOS HR application to track attendance and employee data with seamless user experience • Implemented backend APIs using PHP to support real-time data handling across platforms	
Digital Wallet Application (iOS)	
• Developed a secure digital wallet application for a banking client with end-to-end ownership • Implemented core features including transactions, account management, and API integrations • Provided production support and handled client requirements	
Mobile Banking Application (iOS & Flutter)	
• Worked on mobile banking applications for retail users, including bill payments, airtime services, and account features • Developed and enhanced features across iOS (Swift) and Flutter platforms • Ensured smooth integration with backend services and APIs	
Retail & Corporate Banking Systems	
• Contributed to multi-platform banking solutions across Web, Android, and iOS • Supported development of features for corporate and retail banking workflows • Built an AI-powered conversational assistant enabling users to perform payments and banking operations through voice and chat • Integrated ElevenLabs AI for natural language interaction and improved user accessibility
